Subject: American Wireless – Winsted relationship

To: Gordon Perry, American Wireless

Gordon:

I am pleased to confirm Winsted's on-going OEM relationship with American Wireless. As a Winsted OEM, American Wireless can provide Motorola the entire array of Winsted products and services, including the ability to create unique custom configurations that are only available from American Wireless. This relationship enables American Wireless to better fulfill your clients' exact requirements at the lowest possible cost.

I look forward to our continued successful relationship and for great growth in 2013.

Sincerely,

Dave Tewel
